EDUCATION

Maulana Azad National Institute of Technology (MANIT)

Bachelor of Technology in Electronics and Communication Engineering

2023 – 2027

CGPA: 8.17

Vivekananda Vidyapeeth, Bhopal

Class XII - MPBSE

2023

92.8%

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript

Web Technologies: React.js, Node.js, Express.js, Tailwind CSS, Flutter, MERN Stack

DevOps & Tools: Docker, Git, GitHub, Postman, VS Code, Jupyter, Redis, Socket.IO

Databases: MongoDB, MySQL

CS Fundamentals: DSA, Operating Systems, System Design, DBMS, Object-Oriented Programming (OOP)

AI & ML: Machine Learning, Deep Learning, Generative-AI, NumPy, Pandas, Scikit-learn

TECHNICAL PROJECTS

Microlyzer-AI | MERN, Microservices, Docker, Gemini AI

[Live Link](#)

- Architected a **microservices-based interview platform** by decomposing a monolith into independent Authentication, Interview, and Mock Interview services.
- Established centralized request routing and service communication through an **API Gateway**, enhancing system fault isolation and deployment scalability.
- Integrated AI workflows for automated resume analysis and personalized mock interview generation using Gemini API.

Resolve-AI | MERN, Redis, Socket.IO, Gemini API

[Live Link](#)

- Engineered a **real-time customer support system** featuring automated query resolution and ticket generation via a context-aware AI conversational workflow.
- Optimized data retrieval and reduced response latency by implementing **intelligent caching with Redis**.
- Designed an automated escalation pipeline that tracks sessions and transfers unresolved issues to human agents via email notifications.

OCD Detection using EEG Signals | Python, TensorFlow, MLflow

[Live Link](#)

- Trained and optimized LSTM and BiLSTM models for medical signal classification, achieving **91% accuracy**.
- Implemented a robust **MLOps workflow** using MLflow and DagsHub for experiment tracking, model versioning, and artifact management.
- Improved detection baseline by 41% through benchmarking multiple architectures including Random Forest and Logistic Regression.

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- LeetCode (Knight):** Max Rating 1990; Solved 2000+ problems across platforms (800+ GFG, 1663 CodeChef 3-Star).
- First Runner-up:** National CyberShield Hackathon 2025.
- CodeSprint Finalist:** Ranked 146th out of 5000+ participants in CodeClash.
- Specialist:** CodeForces Max Rating 1436.

POSITIONS OF RESPONSIBILITY

Technical Head | Aaroha

2025 – 2026

- Leading a team of 6+ developers to optimize website and app performance, focusing on cross-platform stability and load efficiency.
- Awarded Star Technical Volunteer of the Month for contributions to the technical ecosystem.

Core Team Member | Zenith

2025 – Present

- Organizing competitive programming contests and technical events for 200+ participants to improve problem-solving standards.
