EDUCATION

Maulana Azad National Institute of Technology (MANIT)

Bhopal, MP

B.Tech in Electronics and Communication Engineering (ECE)

2023 – Present

- Cumulative Grade Point Average (CGPA): 8.17 / 10.0
- Relevant Coursework: Data Structures, Operating Systems, DBMS, System Design, Object-Oriented Programming, Machine Learning, Deep Learning, Signal Processing Basics.

TECHNICAL SKILLS

Languages: C, C++, JavaScript, Python, SQL (MySQL)

Web & App Development: Node.js, Express.js, React.js, Tailwind CSS, Flutter, HTML, CSS, MERN Stack

Data & AI: NumPy, Pandas, Scikit-learn, TensorFlow, Google Gemini API, Generative AI

Tools: Git, GitHub, Docker, Postman, VS Code, Jupyter Notebook, MLflow, Redis, Socket.IO

TECHNICAL PROJECTS

Microlyzer-AI | MERN, Docker, Gemini AI, Microservices

[Link](#)

- Architected a monolithic platform into a scalable microservices system with independent Auth and Interview services.
- Established centralized request routing via an API Gateway to improve fault isolation and deployment scalability.
- Developed an AI-powered workflow for automated resume analysis and personalized mock interview report generation.

Resolve-AI | MERN, Redis, Socket.IO, Gemini API

[Link](#)

- Engineered a real-time AI customer support system with an automated context-aware query resolution workflow.
- Optimized data retrieval and reduced response latency by implementing intelligent caching with Redis.
- Designed an automated escalation pipeline that tracks sessions and transfers complex issues to human agents.

OCD Detection using EEG Signals | Python, TensorFlow, Scikit-learn

[Link](#)

- Trained LSTM and BiLSTM models for EEG-based signal classification, achieving 91% detection accuracy.
- Benchmarked signal processing models achieving 41% improvement over baseline Logistic Regression approaches.
- Implemented MLOps workflow using MLflow for experiment tracking and model versioning.

LEADERSHIP & ROLES

Technical Head, AAROHA

2025 – 2026

- Leading 6+ developers to optimize platform load efficiency and ensure cross-platform stability for the official app.
- Recognized as Star Technical Volunteer of the Month for contributions to the core tech infrastructure.

Core Team Member, ZENITH

2025 – Present

- Organizing technical events and programming contests for 200+ participants to foster competitive coding skills.

ACHIEVEMENTS & CODING PROFILES

- Coding:** LeetCode Knight (Max 1990); 3-Star CodeChef (Max 1663); Specialist CodeForces (Max 1436).
- Problem Solving:** Solved 2000+ problems across various competitive programming platforms.
- Hackathon:** First Runner-up in National CyberShield Hackathon 2025.
- Competition:** Ranked 146th out of 5000+ participants in CodeSprint (Final Round of CodeClash).
