SUMMARY

Full Stack Developer and Electronics & Communication Engineering student at MANIT Bhopal. Proficient in the MERN stack, Redis, and Socket.IO with a strong foundation in Data Structures and Algorithms (LeetCode Knight, 1973). Experienced in building scalable web applications and integrating AI/ML models to solve complex real-world problems.

EDUCATION

Maulana Azad National Institute of Technology (MANIT)

Bachelor of Technology in Electronics and Communication Engineering

CGPA: 8.17 / 10.0

Bhopal, MP

2023 – Present

TECHNICAL SKILLS

Languages:	C, C++, JavaScript (ES6+), Python, HTML5, CSS3
Frameworks/Libs:	React.js, Node.js, Express.js, Tailwind CSS, FastAPI, NumPy, Pandas
Databases/Tools:	MongoDB, PostgreSQL, Redis, Git, GitHub, Postman, Docker, MLflow
Core CS:	Data Structures & Algorithms, DBMS, Operating Systems, OOPS, REST APIs

PROFESSIONAL EXPERIENCE & LEADERSHIP

Technical Head

Leadership & Web Development

Aaroha 2025

2025 – 2026

- Leading a team of 6+ developers to architect and maintain the official festival website and mobile application.
- Optimizing front-end performance and cross-platform stability, resulting in improved user engagement.
- Recognized as "Star Technical Volunteer of the Month" for contributions to high-traffic web infrastructure.

Web Developer

Software Development

FiNIT

2024 – 2026

- Enhancing UI responsiveness and performance by integrating real-time feedback systems and clean code practices.
- Collaborating with design teams to align technical implementations with brand identity and user experience goals.

PROJECTS

Resolve-AI | MERN, Redis, Socket.IO, Gemini API

[Live Link](#)

- Engineered a real-time customer support platform utilizing Google Gemini for context-aware query resolution.
- Implemented **Redis caching** and optimized backend handling to significantly reduce data retrieval latency.

- Architected intelligent escalation pipelines for seamless AI-to-human transitions using WebSockets and email notifications.

FreshScan - Fruit Freshness Detector | Python, CNN, FastAPI, React

[Live Link](#)

- Developed a deep learning model using TensorFlow/CNN achieving 96% validation accuracy in quality classification.
- Deployed a **FastAPI REST API** integrated with a React frontend to enable instant real-time image inference.
- Optimized image preprocessing pipelines to ensure consistent model performance across diverse environmental conditions.

ACHIEVEMENTS & CODING PROFILES

- **Competitive Programming:** LeetCode Knight (Max: 1973), CodeChef 3-Star (Max: 1663), CodeForces Specialist (Max: 1431).
- **Problem Solving:** Successfully solved over 2,000+ problems across major platforms (LeetCode, GFG, CodeChef).
- **Hackathons:** First Runner-up in National CyberShield Hackathon 2025; Ranked 146/5000 in CodeSprint.
- **Certifications:** Data Science with Gen-AI (Sheryians), Data Structures and Algorithms (PW Skills).
